

## FILIPINOS FIRE ON OUR GUN BOATS

Establishing Water Base For Americans.

### ATTEMPT TO INTERRUPT THE PROCEEDINGS.

Rebels Opened Fire From Their Trenches and Sharpshooters Attempted Deadly Work to Our Troops—Their Fire Returned, Shelling Trenches and Bombarding Towns of Semaon and Guagua—The Filipino Weakness More Apparent Every Day—Army Gunboats Operating in the Rivers Clear the Country of the Enemy.

Manila, May 8.—[Special]—Insurgents who are gathered in force about Baler, attempted today to interrupt two army gunboats which were establishing a water base for the Americans four miles from Baler. The rebels opened fire on the gunboats from their trenches and their sharpshooters attempted to pick off the Americans. The gunboats returned the fire with an interesting shelling of their trenches, bombarding the towns of Semaon and Guagua. There were no casualties on the American side. The gunboats after shelling the two cities, sent a landing party ashore, who captured the towns without loss. They had been fired on by the rebels before fleeing. At Semaon, the Americans rescued a Spanish officer who was held a prisoner by the insurgents.

### WEAKNESS MORE APPARENT DAILY

Gunboats Operating in River Clear the Country of Rebels

Washington, May 8.—[Special]—The following was received from Gen. Otis this morning: "The situation is as follows: Lawton is at Masin and Baling; scouting parties to the north and east. MacArthur is at San Fernando. The population of the country between Manila and northern points held by troops, are returning to their homes. They appear cheerful and contented. The army gunboats operating in the rivers have cleared the country west of MacArthur of insurgents. The Filipino weakness is more apparent daily." He also reported the death on May 3, of Private Edward Vaughan, of the Fifty First Iowa at Variolau.

Manila, May 8.—To clear the Philippines out of Baler, about five miles southwest of San Fernando, will be the next task of the Americans. The rebel general, Mascardo, has a force of 6,000 men there, well armed and possessed of plenty of ammunition. His troops have never met American soldiers, and they think, according to reports carried to San Fernando, that they can "whip the whole lot." Baler is well entrenched, and thousands of natives are working like beavers, digging trenches and carrying the dirt in baskets. The enemy uses his rifles for fighting only, but compels the bold men and Chinese, and even the women, to labor incessantly. The rebels have an outpost about a mile beyond San Fernando, with a trench that holds between 200 and 300 men. From that point several volleys were fired Saturday night upon the camp of the Twentieth Kansas regiment.

Neither Maj.-Gen. MacArthur nor Maj.-Gen. Lawton moved Sunday, although each reconnoitered the country in his own vicinity for some miles from headquarters, developing the presence of small forces of the enemy. In the vicinity of Laguna de Bay the rebels are extremely active, but the lines of Gen. Owenshine and Col. Wholley, who is commanding Gen. King's brigade during the latter's illness, have been materially strengthened, and there is no danger in that direction.

### THOMAS THREATENS TO ACT.

Colorado's Executive Says Volunteers Must Be Returned Home.

Denver, Colo., May 8.—Gov. Thomas has announced that within a few days, if President McKinley and the secretary of war continue to ignore his communications on the subject of bringing the Colorado regiment from the Philippines, he will take steps with a view to securing the immediate recall of the troops. He declares the volunteers are being detained illegally and in defiance of the constitution. It is regarded as possible that in the event of the failure of any "public attempt" which may be made to bring about the return of the troops the governor will resort to legal proceedings. If such proves to be the case the Supreme court of the United States may be called upon to decide a test case regarding the powers of the president and that provision of the constitution relating to the purposes for which volunteer soldiers may be called into service.

### London Talks of Peace Reports.

London, May 8.—The report that the Philippines have at last recognized the authority of the United States is received here with almost as much satisfaction as is possible in America. The view generally expressed is one of regret that the insurgents did not long ago recognize the inevitable, to save the terrible sacrifices of life. At the same time the hope is expressed, that the natural exasperation of the Americans at the stubborn though futile resistance offered may not make any difference in their treatment of the conquered.

Many Kansans Slain. Topeka, Kas., May 8.—A compilation made by the adjutant-general of the Kansas militia shows nearly 5 per cent of the volunteers of the Twentieth Kansas regiment have lost their lives in the Philippines campaign. Of the 1,500 men who joined the regiment fifty-five have died either in battle or by disease. The list includes a captain and two lieutenants, all of whom were killed in action.

Rely on Guerrilla Warfare. Madrid, May 8.—The Madrid Filipino junta gives out as the substance of a dispatch said to have been received from Hongkong the statement that the insurgents are convinced of the inequality of a struggle in the open field, and that they will now have recourse to guerrilla warfare and ambushes.

Squadron Going to Newport. Washington, May 8.—The secretary of the navy has sent instructions to Rear Admiral Sampson at New York to take the North Atlantic squadron to Newport, R. I., before May 30 in order that the warships may participate in the ceremonies of inaugurating the governor of Rhode Island.

Fifth Immunes Come Home. New York, May 8.—The Fifth United States volunteers (white immunes), consisting of 650 men recruited in Georgia, Alabama, Mississippi, Louisiana, and Texas, arrived Sunday evening aboard the transport Thomas. The regiment is going to Camp Meade, and is from Guantanamo.

Troops Sail for Spain. Madrid, May 8.—The minister of war, Lieut.-Gen. Polavieja, has received a dispatch from Gen. Rios, Spain's principal military representative in the Philippines, announcing the sailing from Manila for Spain of the Spanish steamer Cataluna with Spanish troops.

## GUNBOAT TO ST. LOUIS

Nashville Left Cairo, Ill., This Morning—First War Vessel to Go So Far.

Cairo, Ill., May 8.—[Special]—The gunboat Nashville left this city for St. Louis this morning. It was feared that the vessel would be unable to go to St. Louis on account of the low stage of the river but the recent rains have caused the river to rise. This will be the first war vessel to go so far up the Mississippi.

Her Mouse Trap. Prepared for an emergency is the phrase that seems to fit an elderly woman who, says the Washington Post, was going to the Virginia mountains, and had the drawing-room of a sleeping car. The porter was helping her to stow away her belongings. "Put that mouse-trap under the berth," she commanded, and her voice had the ring of one accustomed to command. "You 'specking to catch anything?" grinned the porter. "Expecting?" she snapped. "I've already caught two mice in sleeping-cars in the last eight years. I don't propose to be mutilated by the creatures while I sleep. Put that trap where I tell you, and mind your own business!" Think of a defenceless woman daring enough to say "mind your own business" to a sleeping-car porter, and yet afraid of a mouse!

### A Curiosity in Willa.

The outer uniformity about wills in general, both as to parchment and penmanship, makes all the more noteworthy the last testament of the late Sir George Parker. Sir George, who lost his life at Cawnpur during the Indian mutiny, had only a tiny scrap of paper on which to write his will, and when it was made it was carried through the lines by a native, who concealed it in his ear. Fragile as it is, it will doubtless outlast as a curiosity and almost as a bit of national history many a bulky manuscript inscribed on material prepared to defy the decay of years.

### Superstition in Children's Play

Scores of things children do in play are relics of savage superstition. Puffing a dandelion flower is one of these, and the crossing of the fingers in the game of tag to secure immunity comes from the use of the Christian symbol to ward off evil spirits.

### The Earth.

The earth is growing stouter and heavier every year by some 10,000 tons. The extra matter which is thus being added to our planet consists of the thousands of tiny meteors or shooting stars which are continually raining upon its surface.

### Works Both Ways.

Morseback exercise possesses, according to some physicians, the faculty of both increasing and reducing weight. If meals are taken immediately after riding additional flesh is gained, otherwise a decrease of flesh results.

## FATAL EXPLOSION IN OSHKOSH MILL

CARELESS ACTION OF A NIGHT WATCHMAN.

Cause Death of a Wife and Child—Andrew Oleson Killed at Madison—Murder Case in Forest County Put Off Until September—News From Badgerdom.

Oshkosh, Wis., May 8.—The engine room of the saw mill of the Paine Lumber company was wrecked by a boiler explosion last evening. The night watchman, Eugene Dubois, his wife and child were the only persons in the mill. The woman was killed outright and the child died in an hour. Dubois may recover. The damage to the mill will reach several thousand dollars. Cold water turned into a hot boiler was the cause.

Many "Marble Hearts." Appleton, Wis., May 8.—Though the Marble Heart club of Appleton has died of over-publicity and its demise duly announced to the maids who were friends of the Appleton members, the idea is spreading through the country. Applications for copies of the constitution and by-laws of the organization are still being received here and "branches" are being organized in other cities, or at least such is the statement of many letters which have been received here by officers of the defunct local anti-matrimonial organization. Chicago has been most prolific in the manifestation of the desire of its mankind to protect themselves against the designs of the feminine members of the population and no less than four clubs of Marble Hearts are on the point of being organized in that city on the lines first promulgated by the Appletonians.

### Unable to Get a Jury.

Appleton, Wis., May 8.—There is a murder case in Forest county, for which a jury cannot be secured. The trial has been put off until the September term, and during the summer the sheriff will endeavor to obtain a list of men who are not prejudiced. About 139 men had been called before Judge Goodland, and everyone had heard of the crime, formed an opinion, and could not serve on the jury. When the venire was issued it was supposed that it included every man in the county. The sheriff, however, when it was found that from these candidates not one could be found who could act as a juror, said that if he were given more time he thought that he could find fifty additional men, and was given the order and court was adjourned. The case to be tried is that of E. O. Stollcher, who is charged with the killing of his cousin at North Oranod.

### Run Over by a Train.

Madison, Wis., May 8.—Andrew Oleson, an employee of the Fuller & Johnson Manufacturing company, was killed by the Northwestern limited at the east end of the city early yesterday morning. Oleson, with two fellow workmen, was fishing on the railroad bridge over the Yaharra river and on the approach of a north bound freight train stepped over to the other track and was struck by a southbound passenger train. The body was twice thrown against the railing of the bridge and finally run over by the train. It was badly mangled. Oleson was about 30 years old and leaves a wife and one child.

### Helen Gould's Thanks.

Madison, Wis., May 8.—Miss Helen M. Gould has written a letter to Gov. Scofield, received today, in which she says:

Will you kindly convey to the legislature of Wisconsin my cordial thanks for their resolution? It was a great pleasure to me to be of some service to the brave men of the Second and Third Wisconsin Volunteer regiments when they passed through New York on their return from Porto Rico. Thanking you for sending me the engrossed copy of the resolution, which I shall always prize, I remain, HELEN GOULD.

### Wisconsin Pensions Granted.

Washington, D. C., May 8.—Original—Special, April 27, William Garner, Green Bay, \$12; Andrew Shields, National home, Milwaukee, \$6. Renewal—George W. Dille, Oakfield, \$6. Increase—James H. Link, New Richmond, \$12 to \$17; Henry Rosenberg, Tess Connors, \$6 to \$12. Mexican War Widows—Jane Robe, Lancaster, \$3.

### John Renk Injured at Whitewater.

Whitewater, Wis., May 8.—John Renk was struck by the 7:40 train here this morning. His collar bone and several ribs were broken, his wagon was demolished and one horse killed. He was a farmer 70 years old. His condition is critical.

### Mr. Spooner Going to Europe.

Madison, Wis., May 8.—Senator and Mrs. John C. Spooner, Mr. and Mrs. Willet Spooner and Phil Spooner will sail for Europe June 14, to be gone during the summer months.

### Assemblyman Daggett's Plans.

Appleton, Wis., May 8.—Assemblyman Daggett was at Marshfield the first of the week looking over the Lyman farm. It is possible that he may decide to make his future home in the Northern part of the state.

### Boy Drowned at La Crosse.

La Crosse, Wis., May 8.—This morning the body of Roy Svein, aged 5, was taken from Black river. He had been missing since yesterday.

### Kipling Accepts a Degree.

Montreal, May 8.—Rudyard Kipling has been offered and has agreed to accept the degree of LL. D. from McGill university.

## JAMESON BACK TO CAPE TOWN SATURDAY

RETURNS IN PURSUANCE TO HURRY ORDERS.

Important Schemes Relative to the Critical State of the Anglo-Boer Relations Supposedly the Cause—Remembered As the Man Who Led the Famous Raid on the Transvaal.

London, May 8.—[Special]—Jameson, who led the famous raid on the Transvaal, returns to Cape Town next Saturday in pursuance to hurry orders. Important schemes relative to the critical state of the Anglo-Boer relations is supposedly the cause for his summons.

### Hint for Other Girls.

There may be a hint for other girls in a speech given to Bessie Tyree in "Americans at Home," at the Lyceum theater. Her part requires her to teach a young lover how to win another girl whom he fancies himself desperately in love with. "You must begin by making her jealous," she says; from her store of worldly wisdom, "and the best way to do it is to begin by sending me some presents."

### The Soldier's Vote.

A soldier of the regular army may vote if he is stationed at his old home or within such distance of it that he can go there to register and vote. He doesn't lose his old residence by enlisting, nor does he acquire a residence by being stationed at a place. If he can get to his old home on election day he may vote.

### A Proper Way of Breathing.

To learn to breathe properly, inflate the lungs and walk for five paces, keeping the mouth shut and breathing through the nose, increasing the five paces to ten, and then to fifteen or more. Follow this up by taking several long breaths after getting up in the morning and again before retiring.

## IS NOT A CANDIDATE

John Sherman Denies That He Is a Candidate For Gubernatorial Honors.

Cincinnati, O., May 8.—[Special]—In a letter to a friend in this city, John Sherman denies the story that he is a candidate for the republican gubernatorial nomination. He says he is too old to undertake the performance of the duties of the executive office of the state and furthermore says the present condition of his health and strength would not permit him to accept the office.

### The Lighting of a Room.

"The lighting of a room," says the Pharmaceutical Era, "depends, to a large extent, upon the color and the material of the walls; in other words, upon the percentage of light reflected by them. Recent experiments have shown the proportion of light reflected to be in percentages as follows: Black velvet, 0.4; black cloth, 1.2; black paper, 4.5; dark blue, 6.5; dark green, 10.1; light red, 16.2; dark yellow, 20; blue, 30; light yellow, 40; light green, 48.5; light orange, 54.8; white, 70; mirror, 92.3."

### Not Would, but Could.

The Yankee pilgrim had just finished a long tour of the world, and was waiting on the pier at Liverpool for the steamer which would carry him back to his native land. The Britisher was just beginning his similar tour. They had agreed to be friends across the Atlantic. "I've been all over this world," remarked the Yankee, "and I did the whole trip for \$3,000." "No one but an American would do that," said the Briton. "No one but an American could do it," replied the pilgrim.

### An Improved Razor.

An improved razor has a removable blade which can be taken out for sterilizing, the back having a grooved channel into which the blade slides, with a spring catch entering a depression in the shank to lock it in place.

### Canada's Extent.

Canada needs only 237,000 square miles to be as large as the whole continent of Europe; it is nearly thirty times as large as Great Britain and Ireland, and is 500,000 square miles larger than the United States.

### Ancient Drugs.

Eugene Toulouze, well-known archaeologist and student of the antiquities of Paris, has just made a restoration of a druggist's shop of the seventeenth century, with articles discovered recently in Paris. Some of them are as old as the fifteenth and fourteenth centuries.

### New Test for Coal.

A French experimenter suggests that the X-ray furnishes a ready means to detect stony impurities in coal. Carbon is very transparent to the Roentgen rays, while silica is opaque to them. Consequently the silicates, which form slag when coal is burned, can be seen like a skeleton when the shadow of the coal is projected upon a fluorescent screen.

## ARE THE HICKORIES DYING?

Reports Say That Many of These Trees Are Gone

Reports from farmers in several localities in Rock county say that many hickory nut trees failed to come through the winter alive, in some instances every hickory on the place apparently being dead. The hickory was one of the trees indigenous to this locality and in private grounds and farms many of them have been spared for natural adornment or shade. The hickories were liberally sprinkled among the groves of the Line City when the white man first set foot here. They have grown to good size and are found all through this section. The loss of any considerable number of this variety is much to be deplored. People have a liking for them on their own account. They are of slow growth and only to be replaced by long years of waiting, but their sturdy character and the toothsome nuts they bear give them a warm place in public favor. It will probably appear by reports from different sections within a week whether this loss is general.

### Murder in Spitalfields.

A young Russian woman named Flenburg committed suicide in Spitalfields the other night under circumstances of a fearful character. Flenburg and her husband came to England a few months ago. Subsequently they parted, the husband going to America and the woman to live with Aaron Flenburg, her brother-in-law, in a lodging-house in Dunk street, Spitalfields. All the woman's money was, however, expended, and the brother-in-law was unable to maintain her. Friendless and penniless, the girl—she was only eighteen years of age—was driven to desperation, and then she poured some paraffin oil over her clothes and set them on fire, and in this fearful manner terminated her existence.

### The Naming of Vessels.

One of the earliest named vessels was the Argo, which carried Jason and his companions on their quest for the golden fleece. The story of the Argonauts dates from the time of Pindar, 500 B. C., at the very latest. The later Greeks named their vessels, as did the Romans. Our christening or naming of vessels undoubtedly is an adaptation of the ancients' custom of installing the image of a tutelary deity in the tutela or shrine at the stern of a vessel. Thus the vessel that carried Paul from Malta to Rome was "under the sign of Castor and Pollux" (Acts xxvii, 17). The ceremony of breaking a bottle of wine on the bows of a new vessel as it is launched is derived from the libation which the ancients made to Neptune or Poseidon.

### Keep Warm by Breathing.

The simplest way to get warm after exposure to cold, says All Heil, is to take a long breath with the mouth firmly shut. Repeat this several times until you begin to feel the heat returning. It requires a very short time to do this. The long breath quickens the pulse and thus causes the blood to circulate faster. The blood flows into all parts of the veins and arteries and gives out a great deal of heat. It is stated that this method of deep breathing prevents colds and a great many other ailments if begun in time.

## IS NO CONTENTION OVER THE RESULT

Report of Beef Board of Inquiry.

NO FURTHER PROCEEDINGS WILL BE TAKEN.

Its Mildness of Tone and Its General Disposition to Take Both Sides of the question Was Not Entirely Unexpected and the General Impression Is that a Compromise Has Been Reached—The Censure of Miles Not Sufficiently Vigorous to Arouse the Resentment of That Officer—Will Not Take the Matter Before Congress.

Washington, May 8.—[Special]—The report of the beef court inquiry has not aroused any fierce contention in official circles. Its mildness of tone and its general disposition to take both sides of the question, was not entirely unexpected and the general expression is that a compromise has been reached and that no further proceedings will be taken. The censure of Miles is not sufficient. Vigorous to arouse the resentment of that officer and it is believed that he will not take the matter before congress as he had threatened to do.

Washington, May 8.—By direction of the president, who approves the findings, Acting Secretary of War Meiklejohn on Sunday made public the report and findings of the military court appointed to investigate the charges made by Maj.-Gen. Miles, commanding the army, that the beef supplied to the army during the war with Spain was unfit for the use of the troops. The most important features of the report are:

The finding that the general's allegations that the refrigerated beef was treated with chemicals were not established. That his allegations concerning the canned fresh or canned roast beef were sustained as to its unsuitability for food as used on the transports and as a long-continued field ration. Censure of Gen. Miles for "error" in failing promptly to notify the secretary of war when he first formed the opinion that the food was unfit. Censure of the commissary-general (then Gen. Eagan) for the too extensive purchases of the canned beef as an untended ration. Censure of Col. Maus of Gen. Miles' staff.

The finding that the packers were not at fault, and that the meats supplied to the army were of the same quality as those supplied to the trade generally. The recommendation that no further proceedings be taken in the premises. The censure of Col. Maus, inspector general on Gen. Miles' staff, is based upon his failure to call attention to charges concerning the beef at Chickamauga contained in a report of inspection made by Dr. (or Major) Daly on the 26th of October last, in which he stated his belief that the beef was chemically treated.

The report places the quantity of canned roast beef purchased for the war by the commissary department at 6,847,174 pounds, including 350,000 pounds which was brought from Liverpool and other English ports. This amount is characterized as excessive, and the commissary-general (Gen. Eagan) is severely criticised in several parts of the document on this score. One of the severest rebukes is as follows:

"Considering the little use that had been made of this beef in the regular army, the probability that the volunteers were entirely ignorant of it, that its use as a part of the field ration had never been sanctioned by the president or secretary of war, the court can but characterize the action of the commissary-general of subsistence as unwarranted and reckless in that he ordered the purchase of such enormous quantities of a food that was practically untried and unknown, and the court so finds. The court also finds that there is no ground for any imputation whatever of any other actuating motive on the part of the commissary-general than the earnest desire to procure the best possible food for the troops. The court pronounces this act of the commissary-general of subsistence a colossal error for which there is no palliation."

The court finds that there was neglect in Cuba and to a less degree in Porto Rico in delivering the refrigerated beef. Replying specifically to questions sent out by the president the court says:

"That the refrigerated beef furnished the army was 'not doctored or treated with any other agency than cold air.' 'That, barring some defects in methods of inspecting the beef on its delivery to the subsistence department, the deterioration of the meat in shipment was due to the fault of no one.' Several pages of the report are devoted to the consideration of the allegation made by Gen. Miles that the

## SABBATH WORSHIP AT THE CHURCHES

EXCELLENT SERMONS BY LO-  
CAL DIVINES.

Rev. A. G. Wilson's Theme Was "Con-  
science, Is It Infallible?"—Rev.  
Kempton gave Sixth Sermon of Se-  
ries, "Fresh Light On Old Truth"—  
Subject "Joys of Justification."

At All Souls church yesterday Rev.  
A. G. Wilson preached on "Conscience;  
Is It Infallible?" Following will be  
found portions of the sermon:

Conscience appeals to me not as a dis-  
tinct impulse or faculty independent of  
other powers, but rather the combined  
and focalized results of all the intel-  
lectual faculties and emotions. A com-  
mon channel into which flows the best  
judgment and holiest impulses. To  
solve a mathematical problem calls to  
action but a single department of  
thought, but to face a question of right  
and wrong demands a response from the  
whole man. He not only thinks and  
judges; but feels and resolves, and some-  
times is compelled to weep. No man  
comes to his truest self until the thun-  
ders of his Sinai wake him up to duty  
and to law. The largest word in the  
universe is God. The largest word on  
earth is man. The largest word in hu-  
man experience is I ought; and the  
greatest man is he who most compre-  
hends that word.

"Our intercourse with this high priest  
of the soul is the unwritten part of hu-  
man history. We are all Catholics. We  
bow at a confessional and whisper our  
lives into the spirit's ear. But let us in-  
quire, is this priest of the soul a pope as  
well, and is it infallible as a guide in  
morals? Is it always safe to follow the  
dictates of conscience? Certainly he  
who yields perfect obedience to his  
moral monitor may commit errors, but  
he will be free from wilful wrong. But  
there is another key to unlock the fail-  
libility of conscience and that is the mo-  
tive which prompts the act. Conscience  
will often fail to determine the right or  
wrong of an act considered as an act,  
but it will never fail in determining the  
purity of your motive, and you know  
that motive gives moral quality to  
action.

And so, if you define conscience as  
the soul's sense of right and wrong in  
action I say it is infallible. It is one thing  
today and another thing tomorrow. It  
is condemned as a crime in one spot and  
heralded as a virtue in another. For it  
considers only the external act and the  
moral character of an action may change  
with the time and custom. But if you  
define conscience as the soul's sense of  
right and wrong in motive it is infall-  
ible, for you may always know when you  
mean to do right and when you mean  
to do wrong. A pure motive will not  
make a wrong act right, but it  
clears the actor of wilful sin and hence  
of moral guilt and penalty. The lawyer  
goes behind the hand that fired the fatal  
shot to find the guilt. The act was fatal  
but the murder was in the malice afore-  
thought.

Underneath the outer life of us all  
there is an inner life, and this is the  
sphere of conscience. And it is infal-  
lible as a judge of right and wrong mo-  
tives.

The world needs a teacher of con-  
science. None better than he who walked  
in Galilee and taught the world the arts  
of holy living. Where is Jesus the  
apostle of conscience? In Gethsemane?  
Not at all.

On the Mount of Olives He wanders no  
longer. But today, as then, "He is the  
light that lighteneth every man that  
cometh into the world." And if men  
will catch his spirit and thought,  
the new age that is dawning will be  
a fabric with three essential threads in-  
terwoven—the diffusion of intelligence;  
the diffusion of property and the diffusion  
of conscientiousness.

The Baptist Church.  
Mr. Kempton gave the sixth sermon  
of the series, "Fresh Light On Old  
Truth." The subject was: "Joys of  
Justification." The text was in Romans  
5-12.

Some Christians live in constant fear  
about their salvation and others are  
never troubled and idly live on without  
any exertion whatever on their part.  
Midway between these extremes is the  
proper way to live.

Justification has its foundation in the  
work of Christ. We cannot compre-  
hend it but we may accept it by faith in  
Christ. It is complete and final as the  
work of Christ is complete and final.  
We may not be entirely free from sin,  
but we may have faith and comfort as  
we believe in the redemptive work by  
Christ and try to work out our salva-  
tion. One of the fruits of justification  
is peace with God. Christ was our great  
friend and He has taken our sin upon  
himself and made us free from its pen-  
alty.

Justification also brings the favor of

## Woman's Severest Trial.

Until recent years woman's severest  
trial has been the bringing of children  
into the world.

Today nearly all the sickness, pain,  
discomfort and dread are avoided by  
those expectant mothers who use  
**Mother's Friend**, that wonder-  
ful liniment made famous by the great  
good it has done. It is used externally.  
That is the only sensible and safe way  
to relieve morning sickness, headache,  
tightness, swollen, hard or rising breast.  
The bearing of children need no longer  
be dreaded. Mother's Friend has been  
called a Godsend by mothers all over  
this land. Sold at drug stores for \$1 a  
bottle, and by

God to us. God is again our friend.  
He meets us as we come out of the pris-  
onhouse of sin and gives us his love and  
favor. We are his dear children. Jus-  
tification brings the joy of the hope of  
glory. Every sorrow and affliction  
works out the christian's hope of eternal  
glory.

Whatever your condition in life may  
be, rejoice in the hope that Christ has  
given you. May this joy of justification  
over be yours.

Mr. Kempton's evening subject was:  
"Is the Bible True?"

## "A JOLLY NIGHT" IS COMING

At Myers' Grand Opera House Next Wed-  
nesday Evening.

Ferris' Comedians played their fare  
well bill at the Myers Grand last Sat-  
urday evening, and closed their engage-  
ment here, presenting "Our German  
Friend." There was a fair sized audi-  
ence present and all enjoyed the even-  
ing immensely, especially the catching  
of the pig, which caused many a hearty  
laugh and proved a very novel attrac-  
tion. Some difficulty was experienced  
in disposing of the porker through a  
sense of modesty on the part of several  
whose names were drawn but refused to  
lay claim to their property. The name  
of Charles Rayner was finally called, who  
left his seat in the gallery and made his  
appearance on the stage and soon after  
surveying the situation was "monarch  
of all he surveyed."

The company will entertain Madison  
theatre-goers this week and next week  
go to Oshkosh, where they close the  
season.

## "A Jolly Night"

All theatre-goers enjoy a bright, clear  
performance with just enough story to  
keep the interest of the audience and  
with new and novel specialties inter-  
polated. "A Jolly Night" has been de-  
scribed as a combination of profound  
dramatic interest and infectious fun.  
There is no doubt but what that clever  
comedian, Dean Raymond, and his cap-  
able company, will be greeted with ex-  
cellent audiences.

Those who have seen the performance  
before will be surprised by the remark-  
able improvement that has been made  
and the many new features added. This  
company will be seen here on Wednes-  
day, May 10. Seats ready Tuesday,  
May 9, at 10 a. m.

## TEN SPEAKERS ARE SELECTED

To Take Part in Beloit College Com-  
mencement.

The ten speakers for the Beloit col-  
lege commencement have been an-  
nounced as follows: E. P. Adams, Miss  
Mabel Nichols, Allen Eaton, Miss Helen  
Edwards, Edmund Enright, Miss Char-  
lotte Ingersoll, Paolo L. V. Lyman, Miss  
Geneva Reiter, Wilfrid Rowell, and  
Miss Elizabeth Whitney. The grounds  
of Emerson hall are being greatly im-  
proved by the planting of trees and  
shrubs according to the plans of a  
leading gardener. President and Mrs.  
Eaton's youngest child, Eldred, is  
very low at a hospital in Boston.  
The little girl accompanied the  
wife of Prof. Collie East and has been  
very ill there. There seems to be little  
hope of recovery. A new constitution  
for the Athletic association has been  
formulated and awaits the actions of  
the board of control. There was a liv-  
ely debate at the hall of the Chosaphie  
Literary society Friday night. It was  
the first practice of the freshman debat-  
ing team which is to go to Ripon soon.  
There was much debate and the contest  
showed that the freshmen are getting  
well equipped for their meeting with the  
Ripon men. The college oratorical B is  
now worn by twenty five students.  
Prof. Whitney was a judge in the or-  
atorical contest of the Northern Illinois  
Oratorical association at Oberlin Friday  
night.

## MR. STODDARD EXPLAINS

Has a Word to Say About Killing the  
Dog

Editor Gazette—I notice in your Sat-  
urday's issue, that I was fined for shoot-  
ing Mr. Ott's dog. Mr. Ott being the  
complainant. The fact of the matter is  
that the dog belonged to Mrs. Sullivan,  
but Mr. Ott, holding a responsible posi-  
tion in the Fire Department, and being  
a law-abiding citizen, he did not want  
me to break any of the city ordinances,  
he thinking it his privilege as well as  
his duty to see that I walked in the  
straight and narrow path. All honor to  
Mr. Ott.

W. B. STODDARD.

## FIREMAN COAN DISCHARGED

From the Janesville and Chicago Hospi-  
tals as Being Cured.

J. C. Coan has left for his home in  
Hillsboro, Wis.

Mr. Coan was employed as a fireman  
on the C. & N. W. railway and was ter-  
ribly scalded in a wreck that occurred  
between Roscoe and Caledonia on March  
23, 1898. Since that time he has been  
receiving treatment for his injuries, part  
of the time at Janesville, and later on at  
St. Luke's hospital in Chicago, from  
which place he has just returned, hav-  
ing been discharged on account of his  
nearing recovery. His injuries were so  
severe that he will probably be crippled  
more or less for life.

## SEVERAL VISITING WHEELMEN

Beloit Cyclists Were Here Yesterday in  
Goodly Numbers

Visiting cyclists were numerous in  
Janesville yesterday and it is doubtful  
if as many have been here in any one  
day since the season opened.

Beloit was represented by at least a  
dozen who arrived in the morning and  
remained for dinner.

Several also made the trip from the  
Cut Off City.

The rain during the night prevented  
many from returning a wheel and the re-  
sult was that many remained over night  
that could not get home by train.

## ANOTHER VICTORY FOR JANESVILLE

HIGH SCHOOL TEAM DEFEATED  
THE BELOIT NINE.

Line City Boys Walloped By a Score of  
8 to 5 in Game Played At That City  
Saturday Afternoon—An Exciting  
and Interesting Game—Whitewater  
Here Next Saturday.

It is with pleasure we chronicle the  
defeat of the Beloit High school boys  
at the hands of the aspirants to base  
ball fame of the same institution of  
learning in this city. It was with  
greater pleasure that many witnessed  
the interesting game played at Keep  
Athletic field, Beloit, last Saturday  
afternoon, in which the Beloit High  
was defeated by a score of 8 to 5. It  
was a hot contest from start to finish  
and we are informed that not one word  
was said to mar the pleasure of the  
spectators or excite the feelings of the  
players during the contest. Truly ex-  
citement was aroused, but with no de-  
gree of animosity; only a desire that  
victory might add laurels to the favor-  
ite nine. The game was largely attend-  
ed and many of the fair sex were there  
and "rooted" the best they knew how.

The game was called about 3 o'clock.  
At the end of the sixth inning the score  
stood 8 to 0 in favor of Janesville and  
in the seventh inning the Line City  
boys made their first run, which "put  
them on their feet." In the eighth the  
tide was turned, the score standing 4 to  
1 in favor of the best team. In the  
ninth inning, both teams succeeded in  
scoring four times; the game ending  
with the result as previously stated.

After the ball game was over, the  
junior girls of the Beloit High school  
gave the visitors a reception at the High  
school building, which was greatly en-  
joyed by the visitors.

Next Saturday afternoon the White-  
water and Janesville High school teams  
will meet on the diamond here and the  
game promises to be a very interesting  
one and it is to be hoped more largely  
attended than the last game played  
on the home grounds.

## Beloit Defeats Northwestern

The Beloit college team defeated the  
Northwestern team at Evanston last  
Saturday afternoon by a score of 4 to 3.  
Adkins, who formerly played in the  
Bower City, pitched for the Beloit nine.

## HAVE RAISED ALCOHOL PRICES

Local Druggists Say They Have Been  
Charging Too Little.

Druggists throughout the city have  
raised the price of alcohol from forty to  
fifty cents a pint. At this advanced  
price they claim there is no money in it.  
"The reason there is no money in  
handling alcohol," said a local druggist  
this morning, "is because it evaporates  
so fast. I bought a barrel full not long  
ago, and after letting it stand a few  
weeks, found that much of it had evap-  
orated, so that there was no profit left  
when I retailed what was left."

Saloonkeepers here have also raised the  
price.

## WILL PROTECT PEDESTRIANS

Large Wooden Canopy Erected About  
the Hayes Building

Contractors Billings and Cullen com-  
menced this morning the erection of a  
wooden canopy that will cover the walk  
on the Milwaukee and Main street sides  
of the Hayes block.

This structure is so built that it ex-  
tends from the building to the outer  
edge of the walk and will protect pedes-  
trians from being injured by falling  
bricks and wood.

This canopy arrangement will remain  
in position through the summer or until  
the building is completely remodeled.

## TWENTY-FIFTH ANNIVERSARY

Meeting of Woman's Foreign Missionary  
Society At Lake Geneva.

A program announcing the twenty-  
fifth anniversary of the Woman's For-  
eign Missionary society of the Janes-  
ville district, Wisconsin conference, has  
made its appearance and announces an  
interesting meeting to be held at Lake  
Geneva Friday, Saturday and Sunday,  
May 12, 13 and 14.

Mrs. L. N. Wheeler and Rev. and  
Mrs. George Verity, returned mission-  
aries, who are well known to Janesville  
people will be there and address the  
gathering.

Delegates from here will leave Friday  
morning, May 12, at 11:30 o'clock, on  
the Chicago, Milwaukee and St. Paul  
road.

The regular fare to Springfield is  
\$1.14, but if ten or more leave in the  
party, excursion rates can be secured.

From Springfield to Lake Geneva  
round trip tickets by carriage will cost  
thirty cents.

It is expected that a large local de-  
legation will attend and a profitable time  
is assured.

Many old soldiers now feel the effects  
of the hard service they endured during  
the war. Mr. Geo. S. Anderson, of  
Rossville, York county, Penn., who saw  
the hardest kind of service at the front,  
is now frequently troubled with rheu-  
matism. "I had a severe attack lately,"  
he says, "and procured a bottle of  
Chamberlain's Pain Balm. It did so  
much good that I would like to know  
what you would charge me for one dozen  
bottles." Mr. Anderson wanted it  
both for his own use and to supply it to  
his friends and neighbors, as every fam-  
ily should have a bottle of it in their  
home, not only for rheumatism, but  
lame back, sprains, swellings, cuts,  
bruises and burns, for which it is un-  
equalled. For sale by People's Drug  
Co., corner Main and Milwaukee streets.

## School Entertainment.

By request the Orfordville school will  
repeat the program given March 17,  
Friday evening, May 12, at the Star  
opera house, assisted by Miss Perne  
Peake, of Beloit. Miss Peake is well  
trained, popular soprano soloist, and  
will not fail to please. The proceeds  
will apply on the fund for a school  
organ. Admission 10 cents.

## WOULD BAR OUR MEAT.

**Reichstag Committee Acts — German Liberal Press Condemns the Effort.**  
 Berlin, May 8.—The German liberal press, and especially the Vossische Zeitung, strongly condemns the decision of the reichstag meat-inspection committee Saturday—a decision which if it were adopted by the reichstag would make the importation of American canned meats impossible. The government and the reichstag assuredly will refuse to entertain these propositions.

In the meantime the agrarian press continues violently to attack the government for its attitude toward the United States and Great Britain. The agrarian Correspondenz declares that "polite intimations" are the only protest German diplomats dare make against violations of German rights and blows at Germany's commerce.

**Fail to Agree on Coal Scale.**  
 Pittsburgh, Kan., May 8.—After a conference which lasted until after midnight Saturday night between the operators and executive board of U. M. W. A. of districts No. 21 and 14 here over a question of scale and the recognition of the U. M. W. A., an adjournment was had without any results having been reached. Adjournment was taken until Tuesday in order that the executive committee could frame a new proposition and allow the operators interested in the southern Kansas and Indian territory district to agree upon a definite plan of action.

**Great Britain Gets Islands.**  
 San Francisco, May 8.—A letter from Tonga, Friendly Islands, dated April 11, says that a treaty has been entered into between Great Britain and the islands. Last December the German vice consul at Samoa made a demand on this government for \$25,000, the claims being for debts contracted by Tongans to German traders. Great Britain has agreed to pay the debt and assume ownership of the islands.

**Settles Bluefields Row.**  
 Managua, Nicaragua, May 6, via Galveston, Tex.—The Bluefields correspondent of El Comercio, telegraphs that Capt. William L. Morry, the United States minister to Nicaragua, has agreed to a settlement of the claims of United States citizens there against the Nicaraguan government. The settlement, according to El Comercio's correspondent, is favorable to Nicaragua.

**French Ambassador Appealed To.**  
 Madrid, May 8.—In view of Aguirre's refusal to negotiate with Spain for the release of Spanish prisoners, the government of Spain has asked the French government to arrange for fresh negotiations at Washington, through the French ambassador there, M. Jules Cambon, for the release of the prisoners, according to the stipulations of the Paris treaty of peace.

**Advocates a Strong Militia.**  
 Wardner, Idaho, May 8.—At a conference with a number of Wardner business men Gen. Merriam declared against the establishment of a new military post in the Coeur d'Alenes for the purpose of keeping down dynamiters. The formation of a strong militia, he suggested, should be the best means of maintaining order after the present riots are effectually quelled.

## SMALL POX PATIENT MAKES HIS ESCAPE

COLORED TRAMP TAKEN ILL  
HERE ONE WEEK AGO.

Has Been At the Detention Hospital  
Near the Corner of South Bluff and  
Sharon Streets—Alleged to Have  
Robbed His Nurse of Clothes,  
Watch and Cash.

Daniel Webster Graham, a colored man claiming to reside in Kansas, has been ill with small pox in Janesville during the past week.

He has been cared for at the city detention hospital near the corner of South Bluff and Sharon streets and was looked after by George Phelps, who was detailed by the authorities to watch over and nurse the sufferer.

Saturday night, according to Mr. Phelps, Graham commenced to act uneasy stating that he believed there was no further use of his remaining in the hospital and that he intended to leave.

At 10:45 o'clock the colored man approached Phelps and with knife in hand threatened to do him bodily harm if he in any way interfered with his escape.

Graham then went about the house, took a suit of clothes, ten dollars in cash and a watch and chain, all alleged to have been the property of Mr. Phelps.

He then left the house and made good his escape.

As soon as possible Mr. Phelps made his way to a telephone and notified the police.

Chief Hogan and Officer Brown were soon on the scene, but they made it a special point to keep at a safe distance from the pest house, and heard Mr. Phelps tell his story from a distance.

The police then commenced a search for the fleeing negro, but after several hours' work on their part in all sections of the city, they were unable even to get a clue to his whereabouts.

City Health Officer George W. Fifield visited the detention hospital yesterday and ordered the same thoroughly fumigated and all bedding and clothing burned. He has also notified the state board of health, so that they may keep a sharp lookout for the fugitive.

Dr. J. B. Whiting, who has been in attendance upon the patient since his illness here, stated this morning that Graham should not have left the hospital for several days. He was still a sick man, said the doctor, although he was well on the road to recovery.

No effort will be made to arrest and bring him back here, at least for the present.

Georgé Phelps, the nurse, whom Graham is alleged to have threatened with a knife, resides in this city and has had the dread disease. Mr. Phelps says that Graham stated to him that he contracted the disease about three weeks ago in a detention hospital at Cincinnati, where he was placed for fear that he had small pox. After being in the hospital there a few days, the officers decided that he was not ill and after vaccinating him he was allowed to take his departure.

Being a tramp, Graham says he boarded a freight train for Chicago and from there made his way to Janesville.

While in Chicago he was taken ill with the disease and on his arrival here was badly broken out.

When Graham arrived here a week ago, he visited several places, begging for food and also applied at the Palmer Memorial hospital for admittance stating that he was ill.

By his escape from the city detention hospital it may mean a most serious affair. The patient was still in a state of sickness when he could easily have exposed others to the disease, for he is said to have worn away the same underclothes that he has had on through his illness here.

Health authorities and officers in the surrounding towns were notified to keep a sharp lookout for Graham.

He is described as being a good looking negro of twenty-five years, weighing about 175 pounds.

## A LARGE SUM FOR REPAIRS

St. Paul Road to Make Extensive Improvements

The Chicago, Milwaukee & St. Paul road are making active preparations to make many local and general improvements this season.

The road will expend more than \$2,500,000 this year on new lines and improvements to the property generally. One million dollars will be laid out in the reduction of grades in Iowa and Wisconsin, \$500,000 on track elevation in Chicago, and another \$500,000 on new ballasting along the various lines. The company will in addition carry out the usual season's work in the way of renewing rails and bridges and repairs to buildings, and will complete its double track between Chicago and Sabula, Ia. Fifty miles of new line will be built between Ponda, Ia., and Spencer, Ia., forming an extension of the Des Moines Northern and Western line and connecting it with the Iowa and Dakota division, and opening up a fine section of farming country.

Indian Ford.  
Indian Ford, May 8.—Mr. and Mrs. Hill and two boys of Albion; Robert Cook and Alice Cook of Porter; Jennie Walrath, Ida Stevens, Henry White and Fred Semandel of Edgerton; and Mr. Scholls of Richland Center, were fishing in the Ford one night last week. The sheriff of Rock county and several friends were fishing here Sunday. Edna and Maggie Hallett are in Janesville. John Price is nursing a badly sprained ankle. W. H. Price, John and Payne, went to Milton Junction Saturday. Twenty-two candidates were baptised in Clear Lake. The singing was beautiful, and a large number were in attendance.

## MENU FOR MONDAY.

Do as adversaries do in law—strive mightily, but eat and drink as friends.—Shakespeare.

**BREAKFAST.**  
Oatmeal Porridge, Shredded Eggs, Coffee, Saffron Luncheon.

**LUNCHEON.**  
Lamb Stew, Cheese Balls, Water Cress, Tea.

**DINNER.**  
Tomato Soup with Croustons, Baked English Cheese, Potatoes au Gratin, Baked Squash, String Bean Salad, Canned Peaches, Coffee.

**SHRIMP EGGS.**—To shrimps an egg, separate the white from the yolk, add a pinch of salt to the white and beat stiff; then pour it on a saucer, piping it high around the edges; then put the yolk in the center. Put into the oven, bake four minutes and a delicate brown. Before serving season with salt and pepper and a teaspoonful of cream on the yolk only. Prepare a dish for every person. It is a very dainty way to serve an egg and very effective.

**CHEESE BALLS.**—When you prepare these balls, be sure your eggs are fresh. The whites of three eggs beaten stiff, one cup of grated cheese and a dash of nutmeg will make cheese balls for six people. Turn the mixture into small balls, roll into cracker crumbs, and fry in deep lard two minutes. Serve on toasted cracker with salad.

Mrs. T. W. Dunham, Prominent in Relief Corps Work.

Mrs. T. W. Dunham, for years a resident of Rock county, and mother of H. B. Dunham of this city, is now in Harman, Tennessee, and is mentioned by Tennessee papers as being prominent in Woman's Relief Corps Work. The Rockwood Times Republican devotes a column to the organization of a new Relief Corps, and says: "Mrs. Dunham, the department organizer and lecturer is a lady of refinement and culture. She certainly made many friends here."

The Rate of Writing.

A rapid writer can write thirty words in one minute. To do this he must draw his pen through the space of a rod, 16½ feet. In forty minutes his pen travels a furlong, and in five and a half hours a full mile. He makes on an average sixteen curves or turns of the pen for each word written. Writing at the rate of thirty words per minute he must make eight curves to each second; in an hour, 28,800; in five hours, 144,000, and in 300 days, working only five hours each day, he makes not less than 43,200,000 curves and turns of the pen.

## MRS. HENNESSEY DIES AT FOOTVILLE

RESIDED THERE FORTY-THREE YEARS.

Was One of the Early Settlers of Rock County—Particulars Received Regarding Benoit Link's Demise in Chicago—Mrs. Croft Dies At Her Home Here.

Mrs. Anna Hennessey, widow of Michael Hennessey, whose death took place eight years ago, died Saturday evening at her home in Footville, aged seventy-five years.

Mrs. Hennessey has been a resident of Footville for the last forty-three years.

She leaves three sons and three daughters to mourn her loss: William Mulcahy, Baraboo; Michael Mulcahy, Mulcahy; Matthew Mulcahy, Footville; Mrs. Thomas Drew, Magnolia; Mrs. Edward Hastings, Chicago; Mrs. Richard Finley, Janesville.

From St. Augustine church at Footville this morning services were held, conducted by Rev. Mr. Smith, of Broadhead.

The remains were brought to this city and tenderly laid to rest in Mount Olivet cemetery.

The pall bearers were John Devins, John Lardson, John Gagan and James Meehan.

Mrs. Elizabeth Croft

Mrs. Elizabeth Croft, a resident of Janesville since 1845, died at her home on Cherry street, at 6 o'clock this morning. She had been confined to the house since last May, her illness taking the form of consumption. A woman of much strength of character, she met death with all the fortitude and courage that had characterized her life, and bore her sufferings without complaint.

Mrs. Croft was born in England in 1836. She came to America with her parents and was married to William Croft when fifteen years of age. Of her three children none survive, but she leaves four sisters and three brothers—Mrs. Fanny McCullough, Fergus Falls, Minn.; Mrs. Mary Shields, Chicago; Mrs. Susan Metcalf, Chicago; Mrs. Jane Garlock, Janesville; Charles Tuckwood, New Mexico; William and John Tuckwood, Janesville. Her daughter-in-law, Mrs. Mary Croft, Chicago, and her grand children, Bert Howland, Lillian and Edna Croft and Clarence Wright were with her when she died.

Funeral services will be held Wednesday at 2:30 in the First M. E. church. Friends may see the departed one from noon Tuesday until evening at the family home on Cherry street.

Benoit Link.

The remains of the late Benoit Link arrived in the city last evening from Chicago.

His sudden demise was caused by heart failure and, without warning he fell to the floor while in the act of talking to a friend at his home.

Funeral services will be held from St. Patrick's church tomorrow morning at 9:30 o'clock.

Kinney-Hoffman

Miss Emma Hoffman and William Kinney, both of this city, were married last month. Both parties have lived here some time. They live now on South High street. Mr. Kinney is employed at the Janesville Woolen mills. Miss Hoffman is a daughter of Mrs. Charles Deibls.

Miss Lizzie Shuler

Rev. R. C. Denison officiated at the funeral services this afternoon at 2:30 o'clock, over the remains of the late Miss Lizzie Shuler.

Services were held from the McKee boulevard residence and the interment was in Oak Hill.

## LIEUTENANT IN THE REGULAR ARMY

C. J. CARLSON OF JANESVILLE, APPOINTED.

Position Is a Most Excellent One and Received Sanction of High Army Officers.—Graduated From the State University.—His Mother Still Resides in the Bower City.

C. J. Carlson of this city, has been appointed a lieutenant in the regular army.

Lieutenant Carlson is now located at Augusta, Georgia, awaiting the time to be mustered out of the United States volunteer service.

As soon as he receives his release, he intends to make his way to Janesville and visit local relatives before returning to the regular army.

Since a boy, Lieutenant Carlson has made this city his home, residing for a number of years with his mother, who now makes her home on Lincoln street.

Prior to entering the volunteer army, Lieutenant Carlson attended the public schools here and ever since he was a mere boy, he had a strong desire to lead the life of a military man.

When the late war broke out he had just finished a course in the mechanical engineering department of the state university at Madison, and was therefore well suited to enter the signal corps of the regular army, for which position he made application and was received at army headquarters at St. Paul. [At the time he applied, he was working on several electrical experiments of his own at the North Main street machine shop of Taylor & Morris.]

Lieut. Carlson is twenty-eight years of age. At Madison was regarded as one of the strongest students in his class.

## EIGHT VICTIMS OF CYCLONE.

That Number Known to Be Dead,  
and Many Injured.

### MILES OF TRACK WASHED OUT.

Financial Loss Is Heavy in the Indian Territory and Oklahoma—Great Damage Done to Growing Crops—St. Louis Has a Scare.

Wichita, Kas., May 8.—A cyclone, general in nature, visited Indian territory and Oklahoma Saturday night and eight persons are dead as a result. They are Mrs. James Ware of Watonga, her two small boys, J. H. Murray of Chickasha, and Mrs. John Teufel of Okarche.

At Chickasha the storm was worse than at any other point. Murray, who was a railroad man, was picked up and carried several blocks. He was found pinned under a wrecked building, dying.

Sixteen buildings were blown down. Twenty people were injured, but none fatally. Twenty miles of track on the Rock Island was washed out by a waterspout, and four freight cars were lifted off the track and wrecked.

At Okarche several houses were blown down and twelve persons injured. Mrs. John Teufel was blown out of her house and against a tree, crushing all the bones in her body.

At Watonga the only damage done was in the unroofing of several houses. Mrs. James Ware and three sons went into a cave, which fell in on them. One boy escaped, but Robert, aged 5; James, aged 7, and Mrs. Ware were crushed to death.

At Medford, on the Rock Island, three small tornadoes appeared in less than twenty minutes. Several houses were blown down and many narrow escapes occurred.

The cyclone passed over Canadian county and destroyed at least twenty farm houses and caused great damage to growing crops. At Chickasha seventeen buildings were wrecked and fourteen persons injured.

A report says James Whitman and his son George, farmers near Okarche, were killed in their field.

William Walker, Indian agent at Anadarko, who is in the city, received word that the cyclone did great damage in the vicinity of the agency, destroying crops, cattle, fences and buildings. John Head, a ranchman, was killed.

The cyclone came from the southwest and covered a track one mile wide. It traversed four counties, but did greatest damage in Canadian county.

### Hailstorm Does Damage.

Moweaqua, Ill., May 8.—A terrific wind, rain and hail storm, the worst ever known in Central Illinois, passed over this city and vicinity at 6:30 o'clock Sunday evening. Hail, half as large as hens' eggs, fell thick and fast for almost half an hour. Cellars were flooded, trees and fences were blown down, and hundreds of dollars' worth of damage done to windows and skylights, which were broken in all parts of the city. Telegraph and telephone wires are down in many places, and all garden truck and early fruit of all kinds for miles around are utterly demolished, entailing a loss of from \$50,000 to \$75,000. Hail fell to a depth of five inches, and heaps were found in places after the storm a foot thick.

### Wind Storm at St. Louis.

St. Louis, Mo., May 8.—A violent wind and rain storm swept through the prominent residence portion of the city Sunday, leaving in its trail fifty unroofed houses, thousands of terrified people and streets littered with fallen trees and debris of buildings. Several persons were slightly injured by flying timbers, and for awhile it seemed that a repetition of the terrible tornado of two years ago was in store for the city.

### Cloudburst in Nebraska.

Cedar Creek, Neb., May 8.—A cloudburst happened here Sunday morning, and small streams, out of their banks, damaged farm and rolling land to the extent of thousands of dollars. The Chicago, Burlington & Quincy railroad bed was washed away for 400 or 500 yards.

### Germans Oppose Expansion.

Bloomington, Ill., May 8.—The annual meeting of the Central Illinois Turn societies was held here Sunday, with forty-two delegates present, representing eleven societies, with a membership of 2,000. The delegates passed a resolution declaring the district opposed to the policy of national expansion. Bloomington was, for the third consecutive time, chosen as the annual meeting place of the district. Julius Dietrich of Bloomington was elected president.

## Warning to the Public

\$100.00 REWARD.

The public is warned against receiving a can of T. & T. Coffee with the seal (or ribbon running over the top of the can) broken. It has come to our notice that some unscrupulous groceryman in this city, who is desirous of injuring our trade has broken the seal, removing the T. & T. Coffee and substituting cheap, dirty, trashy coffee in its stead.

We guarantee T. & T. Coffee to be absolutely pure, free from all foreign substance, and will give \$100 Reward to any family who will report the above facts to us, giving the name of the dealer from whom the spurious goods were purchased.

THOMSON & TAYLOR-SPICE CO.,  
CHICAGO, ILLS.

Coffee is sold only in sealed cans, free from dirt and impurities. Roasted under a new process and admitted by coffee experts to be the finest coffee in the world.

If your grocer will not supply you, send us his name and your order (enclosing this paper) and we will see that you are supplied.

### Italian Fleet to Move in China.

Rome, May 8.—It now seems certain that no new cabinet will be formed until after the occupation of San Mun bay. A decisive move on the part of the Italian fleet in Chinese waters is imminent, but the occupation, it is expected, will be peaceful, China consenting under strong pressure exerted by Great Britain.

### Sultan Buys Munitions of War.

Moscow, May 8.—According to advices from Constantinople the sultan has just ordered in Germany artillery, projectiles and small guns to the value of 400,000,000 marks (\$9,520,000).

### Treaty as to China Ratified.

Moscow, May 8.—The ratification of a treaty between Russia and Great Britain "to uphold the integrity of China" has just been announced in St. Petersburg and Moscow.

### COST OF GOVERNMENT.

Fifty-Fifth Congress Spent in All \$1,045,205,011.97.

Washington, May 8.—The third session of the Fifty-Fifth congress directly appropriated a total of \$674,881,022.29. These are the figures arrived at by Messrs. Thomas P. Cleaves and James C. Courts, respectively clerks of the senate and house committees on appropriation, in their preparation of the volume of appropriations, new offices, etc., required by law to be prepared and published at the end of each session of congress.

The appropriations made at the second session aggregated \$893,231,615.55; total for the congress, \$1,568,212,637.84. In the first session no appropriations were made, the congress confining itself to the enactment of the Dingley tariff law. Details of the appropriation in the last session by bills are as follows: Agricultural, \$3,702,022; army, \$30,439,204.06; diplomatic, \$1,714,533.76; District of Columbia, \$6,834,535.77; fortifications, \$4,909,902; Indians, \$7,504,775.31; legislative, \$23,410,840.79; military academy, \$575,774.47; naval, \$45,099,909.58; pensions, \$145,233,830; post-office, \$105,834,138.75; rivers and harbors, \$16,091,841.94; sundry civil, \$48,385,930.86; deficiency appropriations, \$25,005,912.26; miscellaneous appropriations, including \$20,000,000 to carry out treaty obligations with Spain, \$28,744,590.24; permanent appropriations, \$128,678,220; grand total, \$674,881,022.29. From this are to be deducted the earnings of the postoffice department and some other items, which total about \$100,000,000.

### BOERS PREPARING FOR WAR.

Warning Said to Have Been Sent Through the Transvaal.

London, May 8.—A dispatch to the Morning Post from Johannesburg says that the Boers throughout the Transvaal have been officially warned to hold themselves in readiness for serious eventualities. It is added that there has been unprecedented activity in the fort at Johannesburg for weeks past. Military patrols to the north of the town are occupied in range finding. The families of some prominent residents are preparing to leave the country.

### Striking Miners Make Threats.

Brussels, May 8.—The striking coal miners of the Liege district are determined that not an ounce of coal shall be mined until their demands are conceded by the operators. They threaten violence to the men who are taking the places of strikers in some of the mines, declaring that as a last resort they will dynamite the collieries.

### Limited Suffrage in Sweden.

Stockholm, May 8.—The Swedish riksdag rejected the proposal to grant universal male suffrage throughout the kingdom, a matter which has been agitated in Sweden with especial vigor ever since Norway, in April, 1898, extended the franchise.

### Sword for Funston.

Topeka, Kas., May 8.—Kansas will present to Gen. Funston on his return home a sword in recognition of his valorous deeds in the Philippines. Subscriptions have been asked from the people of every community in the state.

### Found Records Mutilated.

Milwaukee, Wis., May 8.—Mayor Rose forced his way into the office of the park board in the city hall Sunday, examined the records and found that stubs had been torn from the official order book, removing all proof of certain payments made from the park funds. This mutilation of public records is punishable by a fine of \$1,000 and imprisonment for one year in the penitentiary. Mayor Rose is highly indignant at the developments, and promises to have a rigid examination made of the park records to see if there is anything else wrong.

### Indiana Gas Field Exhausted.

Kokomo, Ind., May 8.—The test well drilled here to demonstrate the truth or falsity of the theory of reactivation of exhausted natural gas territory was a complete failure. No gas was found. The well was drilled under the direction of the State Natural Gas company and its progress was watched by experts and factory men throughout the Indiana field. They are now convinced that the territory once developed and exhausted is dead, for good and all. The theory that new gas is forming in the porous rock is found to be fallacious.

### President Goes to Virginia.

Washington, May 8.—President McKinley will leave Washington today for his vacation at the Virginia Hot Springs. He will be accompanied only by Mrs. McKinley, Dr. Rixey of the navy, his family physician, Assistant Secretary Cortelyou, a stenographer, and the necessary servants. The start will not be made until 10 o'clock in the evening. The president now expects to remain away from Washington about ten days.

### Bishop Asked to Mediate.

Buffalo, N. Y., May 8.—An appeal was made Sunday to the Rev. James E. Quigley, Roman Catholic bishop of Buffalo, to use his influence to settle the grain shovellers' strike. A committee representing the lake interests, which are suffering through the tie-up, and the state board of mediation and arbitration waited on the bishop at the episcopal residence. Bishop Quigley made an appointment for a conference today.

### Must Not Hire Union Miners.

Spokane, Wash., May 8.—The mines of Shoshone county, Idaho, that propose to operate during the reign of martial law may do so only on condition that they do not employ members of the Coeur d'Alene Miners' union. This is the martial law as laid down by Gen. Merriam and Attorney-General Hayes of Idaho.

### American Club Is Formed.

Havana, May 8.—A large number of Cuban friends of the Americans met at Mariano Sunday and formed a club to celebrate the American national holidays and every important anniversary in American history. Gen. Lee was elected president.

### French Demands on China.

Peking, May 8.—M. Pinchon, the French minister, has demanded of the tsung li yamen the granting of mining concessions in the province of Szechuan and the payment of an indemnity of 1,200 taels for the imprisonment of a French missionary.

From Mrs. Vaughn  
to Mrs. Pinkham.

[LETTER TO MRS. PINKHAM, No. 64,587]

"DEAR FRIEND—Two years ago I had child-bed fever and womb trouble in its worst form. For eight months after birth of babe I was not able to sit up. Doctors treated me, but with no help. I had bearing-down pains, burning in stomach, kidney and bladder trouble and my back was so stiff and sore, the right ovary was badly affected and everything I ate distressed me, and there was a bad discharge.

I was confined to my bed when I wrote to you for advice and followed your directions faithfully, taking Lydia E. Pinkham's Vegetable Compound, Liver Pills and using the Wash, and am now able to do the most of my household work. I believe I should have died if it had not been for your Compound. I hope this letter may be the result of benefitting some other suffering woman. I recommend your Compound to every one."—MRS. MARY VAUGHN, TRIMBLE, PULASKI CO., KY.

### Advertisement For Proposals

For Site For Public Building.

U. S. Treasury Department

WASHINGTON, D. C. April 28, 1899.

SEALED PROPOSALS will be received, to be opened at 1 o'clock p. m., May 24, 1899, for the sale to the United States of suitable property, centrally and conveniently located, for a site for the public building authorized by act of Congress, approved March 2, 1898, to be erected in Janesville, Wis. A corner lot, approximately 130 feet front by 135 feet in dimensions, is preferred. If not a corner lot, the property must approximate 130 feet by 135 feet in dimensions; the 175 feet to be street frontage. Each proposal must be made with the understanding and agreement that, if it is accepted, the building and all improvements on the property are to be retained, and removed within thirty days after written notice, by the vendor, and that all expenses, connected with furnishing evidence of title and deeds of conveyance are to be paid by the vendor. Each proposal must be accompanied by a properly drawn diagram, giving the metes and bounds of the property, and showing the streets around the block in which the property is situated; also by a written statement in regard to the grades, character of ground for foundation, etc. The right to reject any and all proposals is reserved.

Each proposal must be sealed, marked "Proposal for the sale of property for a site for the Public Building in Janesville, Wis.," and addressed and mailed to

## THE ARTIST'S DREAM.

"Two souls with but a single thought,  
Two hearts that beat as one."

Ralph Thorndyke was possessed of a dreamy, poetic nature, far beyond the ordinary. He owned a pretty photographic studio, and his business was congenial to his artistic temperament; there was so much in it to cultivate the love of the beautiful.

He had reached the age of 27, "heart whole and fancy free," or apparently so to his friends. To-day is his birthday, and he is thinking intently of a realistic dream of the night just passed. Just a year ago a vision came to him; a face not beautiful, but strong and earnest and sweet. She appeared to him in a portrait which he seemed to be looking at. The light brown hair was in natural waves over a smooth forehead, and the calm, steadfast eyes were of a deeper hue.

Now, a year later, the same face had again appeared, and Ralph is thinking of the message that came to him. "Patience, one more year, and I will come to you." He finally awoke from his reverie and started for his studio; on the way he picked up a package from the sidewalk. Soon reaching his cozy little office, he opened it, to find two photographs by Sarony in a folding frame; one was a draped figure, the right hand raised to the forehead, the face profile, the other, ah! the same true brown eyes which had haunted him for a year! The brown hair, with golden tints in the high lights; the fair complexion, deepening into a wild rose pink on her rounded cheek. The photo was beautifully painted in water color, and lifelike. The artist soon made copies of both pictures and took his plates into the darkroom to develop, with good results.

Toward night a little archer stuck his head in the door and shouted: "Journal!"

"Here, boy," said Ralph, "never mind the change," as he flung him a nickel. He read the news, then glanced at the advertisements. Under "Lost and Found" appeared the following:

Lost—Two photos of lady, in a folding gold frame, between Wellington-st. and postoffice. Finder please send to D 570, The Journal.

Ralph sent them to the address named, congratulating himself that he possessed such satisfactory copies, and resolved to enlarge the profile for himself. It was a labor of love, to work on it day by day, and a most beautiful work of art it was when finally finished. Time went on apace; another year, with its pleasures and trials, has passed.

About 11 o'clock next day the electric bill rang "three rings," a signal that a subject was ready to be posed; it was the work of a moment to put the negative for exposure into the plate-holder.

As Ralph walked toward the camera what he saw took his breath away. The vision of his dreams! The same womanly face, the graceful form!

The pleasant voice of a well-known society woman broke in: "Allow me, Mr. Thorndyke, to present my friend, Miss Marion Beane, to you and your best effort in art." The artist bowed, expressing himself the best he could, with such a whirling brain as pleased to favor them.

He posed her, then she went to the dressing-room to don another costume; her friend, Mrs. Claremont, chatted with Ralph, saying: "I'm so glad that you two have met to-day, Marion is so romantic; would you believe it? She is waiting for an ideal; she believes that every one possesses half a soul; that somewhere in the

HER EYES MET RALPH'S.  
world the other half is waiting to be recognized, and claimed; if the two halves join, then is the union perfect and two lives made happy, otherwise unhappiness and discord result from the ill-assorted union of two people.

"Two years ago she went into a trance or sleep at midnight while at Newport, nearly frightening every one out of their wits. She came out of it, however, in a few hours; a year ago the same thing occurred at the same hour, while she was visiting me. She returned to her home the next morning and lost two photos of herself, made in New York. I advertised the loss and received them the next day." Marion's appearance at this time put a stop to further confidence, and Ralph had all he could do to control himself to be the artist.

When the ladies were about to go he said: "I would like to have you ladies visit my sanctum sanctorum." to which they gave glad assent.

When they entered the door Marion gave a violent start, for, facing the entrance, was her own figure in life size; under the portrait the words, "Looking into the future." She blushed, then turned pale, and her eyes met

Ralph's with something like recognition. Mrs. Claremont saw that there was something in the air and retired gracefully from the office with a remark about some errand that must be attended to immediately.

Ralph advanced toward Marion and taking her hand, said: "I was the fortunate finder of your photos and have had this portrait for my daily companion a year. May I hope in the future to possess the original? We have in reality known each other two years and need not measure time in the conventional way; I feel that I possess your soul's mate. Is it not true?"

Marion gave him a glance full of faith and trust, saying: "Even so my heart is yours." It was needless to add that Marion never went into another trance. What could it be? Did her soul leave its earthly surroundings to seek its mate? She believes that it did, and found it, too.—Boston Post.

I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicine for it. At last I found one remedy that has been a success as a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy.—P. E. GRISHAM, Gaars Mills, La. For sale by People's Drug Co.

To Resist German Aggression.  
Pekin, May 8.—The empress dowager wanted to send Gen. Yun's foreign-drilled troops to expel the Germans from Jichou, but the cabinet opposed this measure as certain to be followed by disastrous consequences. Gen. Yun's troops, however, were ordered to proceed to the Shantung border and to be in readiness should further German aggression demand resistance.

For Great Michigan Park.  
Lansing, Mich., May 8.—The legislature has under consideration a bill which, if passed, will give to Michigan one of the most extensive public parks in the country. The bill provides for setting apart for this purpose a total of 738,550 acres of land situated in the counties of Lake, Newaygo, Oceana, Mason, Wexford and Manistee. These lands are to be withdrawn from settlement, occupancy or sale, and set apart and dedicated as a public park and pleasure ground forever. It is to be a place of public resort for the enjoyment of the people and for the propagation and preservation of game, birds and fish, and also to preserve the growing timber therein.

Dewey Is in Perfect Health.  
San Francisco, Cal., May 8.—On the steamship City of Peking, from China and Japan, was Dr. B. Page, "passed assistant surgeon, U. S. N., and surgeon on the flagship Olympia for the past year and a half. He makes the following statement regarding Admiral Dewey's health: "Admiral Dewey is in perfect health. He has not been more than twenty miles away from Manila since the first day of last May and he has not felt the necessity of a physician's aid in that time."

## Duck Swallowed Fish.

A wild duck killed by a farmer, brought in and sold on the streets, was dressed in the restaurant of Frenchy's saloon a few days ago, when a fish measuring twelve and one-half inches long was found in its inside, as perfect as if swallowed only a short time before the duck was shot. It had gone down tail first, and while the head was in the duck's craw, the tail was at the extreme end of the bowel. But what bothered those who saw it was how a fish three and one-half inches wide could go down the duck's throat when its throat apparently was not large enough to admit of the passage of one an inch wide. The fish was of the tooth herring or "snipjack" variety, but what family the duck belonged to no one seemed to know.—Frankfort (Ky.) Roundabout.

## Strikers Stone Street Cars.

Duluth, Minn., May 8.—Three persons are known to have been seriously hurt and several others are said to have been injured in street cars that were stoned by strikers and their sympathizers here last night. About twenty cars have been attacked and all of the glass in them broken. Traffic on all lines has been abandoned. The company officials say they will not start another car without a policeman on it.

## WOMEN WHO WORK.

St. Louis, Mo., Aug. 12.  
Though only 10 years old, I suffered from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui and that made me feel better. Have now used several bottles, and am well. My mother used the Wine for Change of Life and was greatly relieved.

MISS MARGARET WALSH.

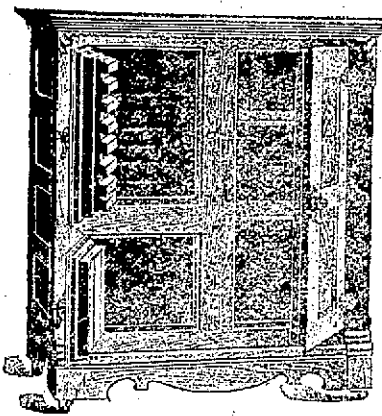

**Wine of Cardui**

Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tiresome tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the back of a superintendent or foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.

## BEEF REPORT MADE PUBLIC.

Continued From Page 21.

Refrigerated beef was treated with preservatives, but the statement is made upon the threshold of this question that "but little testimony was submitted by him in support of this contention." The inference drawn by the court from the absence of such testimony is adverse to the existence of the practice alleged to prevail by the major-general commanding.

A chapter of the report is devoted to the consideration of the cause of the sickness in the army in the Santiago campaign, but "the court finds it impossible to conclude that either the canned fresh beef or refrigerated beef appeared to any appreciable extent as causes of intestinal disease."

Speaking of the ration as a whole, the court says: "As to the effects of the food supply, having regard to both sufficiency and quality, it seems to be clearly established that the army ration as supplied, without modification, to the troops serving in the West Indies was by no means well adapted for use in a tropical climate."

Gen. Miles, when asked whether he had any comment to make upon the beef report, replied that he had read it. "But I have nothing to say," he added, "either about the report, the method of testimony or the conclusions reached."

"Does that mean that so far as you are concerned you will let the matter rest where the report leaves it?" asked the reporter.

"I have nothing to say," replied Gen. Miles.

### PARIS EXPOSITION. WONDERS.

Szepeanik's Telectroscope and Pollak's Telautograph Among Them.

If the management of the Paris exposition fulfills its promises, no small number of technical marvels will be revealed to the public in 1900. First of all there will be Szepeanik's much heralded telectroscope, an instrument which, by the aid of selenium, is said to have solved the problem of electrical vision. The telectroscope will, however, find a rival in the telautograph invented by Anton Pollak, a Hungarian engineer. The telautograph, it is claimed, provides a means of receiving messages sent from one station to another, in exactly the same form in which they were transmitted. The idea in itself is old, but the inventor is said to have devised an apparatus which is entirely different from its predecessors. Pollak claims to have solved the problem by using selenium—a metal which is unique in possessing the property of conducting electricity with a resistance which varies with the intensity of the light that falls upon it. The varying illumination is produced by treating the written telegram in a peculiar manner, and the variations in resistance effected by

the selenium are communicated to a conductor to produce an increase and decrease in the intensity of the current passing therethrough. According to Uhlend's Wochenschrift, the Vereinigte Elektrizitäts-Aktiengesellschaft of Budapest has applied to the management of the exposition for space in which to exhibit the apparatus. An imperfect model is said to be in tolerably successful operation, and to be able to transmit in one hour 144 telegrams, each four inches by two inches, upon which space any number of words or characters can be inscribed.—Scientific American.

### WOMAN'S HOTEL.

Has Become an Assured Success in Gotham.

The Woman's Hotel, as proposed in New York has received a great impetus during the past week. Over \$125,000 worth of stock has been taken by women. Capitalists, who formerly would not put a dollar into the enterprise are now subscribing to the stock. The Woman's Hotel Company, to be incorporated at Albany, has issued a revised prospectus. The capital will be \$400,000 divided into 4,000 shares. The object of the company is to provide one or more hotels for the exclusive use of self-supporting women. It is intended that the first hotel should be fireproof, with a capacity of 500 guests, and the cost to be about \$800,000, carrying a mortgage of \$400,000. Stock amounting to \$100,000 has been taken, largely by women, in the proposed hotel for business women. The shares went rapidly last week after Miss Grace Dodge presented the plans and scope of the venture before the League for Political Education. The Margaret Louisa Home has for years been managed much on the plan of the proposed hotel for women. It is a house which was built by a woman. It is officered and run by women, and supported by them, for it is self supporting, and every part of the management is harmonious. A thousand women dine there every day, and New York has no more attractive sight than its drawing room and library in the evening, with their beautiful furnishing, fine pictures on the walls, costly bits of bric-a-brac, the open piano and bookcases full of good books, and throngs of women either resting in some of the rooms or improving their minds.
